Dear Ms. Hesse:

My letter is intended to articulate my support for the settlement reached in U.S. v. Microsoft and to help complete a four-year-old antitrust case which has addressed the issues which have been deemed valid through the court process. It is plainly clear that this case has had sufficient time and enough resources to fully and fairly consider all of the pertinent issues and develop a remedy that is appropriate to the findings involved.

Any further time and financial resources expended to search for additional issues would, in all likelihood, be a wasteful effort, and not worthy of the resources of the United States government.

As an educator, I am very interested in realizing the benefits to education and disadvantaged children that would result from the settlement. This penalty seems to be a wise and useful result of this lawsuit. Thank you very much for considering my input on this settlement.

Sincerely,

Nona L. Wilson
